> Do you really think his ethnic background makes any difference?

That comment of mine was actually not towards ken but to you; i wanted to see what idiot would respond to the 'chink' comment. Only two persons responded to it: You and dono ! Ha!

> You're starting to sound like Dono, and that isn't a compliment.

But you are responding just like dono did. Have we a third ken now?

> Ken, ken, ken. A coordinate is a NUMBER. Are you THAT ignorant on basic
> mathematics?

> which NUMBERS are these nonsensical expressions?

Answer the question idiot ken. Give a number, no deltas.

Actually, I forbid you to use the expression 'delta'. I was nice enough to let you be in the webconference today. But if you use 'delta' again here, I will permanently bar you from all npa.

So again, Answer the question idiot ken. Give a number, no deltas.

rotchm is David de Hilster <da...@dehilster.com>

Some fact about dehilster:

1. He is racist.

2. He has no clue about SR.

3. He control the weekly video conference for the npa.

4. He planned to use his program to control the data base of npa....the objective is to make millions as he said.

5. He will not allow anybody to present his theory that disagrees with

his pet theory of Autodynamic.

6. He is a pathetic moron.

7. He is stupid...does not know what $-6/-2$ mean and that's why he

keep on asking the same question.

Idiot ken, your an idiot.

THIS Saturday, we are all invited to attend your talk on the NPA.

We will all be asking you to evaluate $(-6)/(-2)$, be forwarned.

rotchm....@gmail.com is David de Hilster of npa.

His email addresses are as follows:

David de Hilster <dehils...@gmail.com>

David de Hilster <da...@dehilster.com>

Some facts about David de Hilster:

1. He is a racist....he called me a chink.
 2. He is in charge of the weekly video conference of npa and the npa data base. He threatened to kIcK me out of the npa even though he does not have the authority to do so..
 3. In an effort to prevent me to present my theory of gravity to the npa group on Jan 14 he muted my sound. That's why I asked someone else to read my slides.
 4. I think David de Hilster is pathetic moron.

Nope. You are wrong again.

> Some facts about David de Hilster:

> 1. He is a racist....he called me a chink.

I called you a chink. But you are the one who is disrespectful by mutilating our language in this NG, by not respecting our conventions or our discussions. You are not welcome here.

> 3. In an effort to prevent me to present my theory of gravity to the

> npa group on Jan 14 he muted my sound.

I am more tempted to believe that its because you are an idiot and you didn't know how to setup your system.

>That's why I asked someone else

> to read my slides.

No. You asked them because you cant speak English correctly and that you feared to be asked (-6)/(-2).

Nope. There is another who can inadvertently mute you: YOURSELF. Your lack of competence kept you muted.

> I will write to the npa membership to show them what a racist you are.

1-you dont know how to write

2-racist:A person who believes that a particular race is superior to another; I have no such belief. But I do believe that *you*, as a scientist/physicist/mathematician/3rd grader is inferior.

3-they will all laugh at you and next time you might not even have the ability to chat or call into the npa conferences...(because of your incompetence or alzheimer)...
